

Maryam S. Mirian

Robotics Lab., ECE Dept.,
University of Tehran, Tehran, Iran
Tel./ Fax +98-21-61119753
Email mmirian@ut.ac.ir
Homepage: <http://maryam.mirian.ir>
Born on March 21, 1977

Current Position:	Assistant Professor, AI and machine learning department, School of Electrical & Computer Engineering, Faculty of Engineering, University of Tehran, Iran.
Education: Sep. 2004 – Sep. 2010	Ph.D. in Computer Engineering, Robotics and Artificial Intelligence Faculty of Engineering, University of Tehran, Tehran, Iran GPA : 18.22 Thesis: Learning Attention Control in a Multi-modal Perceptual space Doctoral Thesis Assessment: Excellent
Sep. 2000 – June 2003	M.Sc. in Computer Engineering, Robotics and Machine Intelligence Faculty of Engineering, University of Tehran, Tehran, Iran GPA: 18.78 / 20.00 <i>Thesis</i> : “ <i>Help Provision, a Mechanism to Improve the Fault-Tolerance of Distributed Systems</i> ”, <i>Grade</i> : 20
Sep. 1995 – July. 1999	B.Sc. in Computer Hardware Engineering Faculty of Engineering, University of Tehran, Tehran, Iran GPA: 15.89 /20.00
Sep.1991 – June 1995	High School : Roshangar Complex Physics & Mathematics Diploma, Roshangar high school, GPA 19.02/20
Research Interests	<ul style="list-style-type: none">• Statistical Pattern Recognition• Mixture of Experts Learning• Autonomous Robot learning• Learning under Uncertainty• Reinforcement Learning• Knowledge extraction, representation and transfer• Decision Support Systems
Selected Publications	[1] Maryam S. Mirian , Majid Nili Ahmadabadi, Babak N. Araabi, Learning Active Fusion of Multiple Experts' Decisions: An Attention-based Approach, Neural Computation, MIT Press, February 2011, Vol. 23, No. 2, Pages 558-591. [2] Maryam S. 	Conference on Information and Knowledge Engineering (IKE2003), July 2003, USA.
Honors	<ul style="list-style-type: none"> • Ranked 1st among 10 M.Sc. Students in Robotics and AI in ECE Dept., Faculty of Engineering, University of Tehran, Iran, 2003 • Ranked 6th among 60 students in undergraduate level in Hardware Engineering in ECE Dept., Faculty of Engineering, University of Tehran, Iran, 1999 • Ranked 535th among more than 300,000 applicants in National Universities Entrance Exam in Iran), 1995
Working Experience March 2001 – Oct2011	In: Iran Telecom. Research Center Position Title: Faculty Member in Knowledge Management Research Group
April 1999 – March 2000	In: Nirou Research Institute, Network Control Group Position Title: Research Assistant, Project: Distributed Control System
Teaching Experience Fall Semester, 2012	“ Statistical Pattern Recognition ” and “ Artificial Intelligence ” in University, Tehran, Iran ECE Dept., Faculty of Engineering, University of Tehran, Tehran, Iran
Spring semester, 2012	“ An Introduction to Intelligent systems ” and “ Decision support systems ” in University, Tehran, Iran ECE Dept., Faculty of Engineering, University of Tehran, Tehran, Iran
Fall Semester, 2010	“ Artificial Intelligence ” in: Electrical and Computer Engineering Faculty, Shahid Beheshti University
Fall Semester, 2005	University, Tehran, Iran ECE Dept., Faculty of Engineering, University of Tehran, Tehran, Iran
Spring, Fall Semester 2000 – 2002	Teaching Assistance for Verilog and VHDL System Design, ECE Dept., Faculty of Engineering, University of Tehran, Tehran, Iran

<p>Selected Researches and Projects in ITRC</p>	<ul style="list-style-type: none"> • 2010- 2011: Knowledge Network in ICT Organizations: The Conceptual Model • 2008-2009: Designing the Ontology of e-Content in an e-enterprise • 2007-2008: Extending KHAN Framework for Organizational Learning • 2005: Developing a content-based Image Retrieval with regard to Color and Shape, as the term project of Image Processing course • 2002-2005: Developing a Question Answering System named TeLQAS¹ with major focus on NLP, Query Processing, Text Summarization and Categorization and Crawling from the web
<p>Other Projects (Term Projects at the University of Tehran)</p>	<ul style="list-style-type: none"> • 2005, Using DNA Computing in DNA Security Applications, as the term project of Network Security course • 2005, Developing an Sport Video Classification system, as the term project for Multimedia Systems course • 2004, Proposing a New Task Assignment Strategy based on Personal Motivation Theory, as the term project of Distributed AI and System Identification courses • 2000, Developing a new fuzzy cache replacement algorithm, as the term project of Fuzzy systems course • 2000, Design and Implementation of the vision module of a mobile robot² designed for a Robot Contest.

¹ <http://en.wikipedia.org/wiki/TeLQAS>

² The robot had 3 major responsibilities: 1) gathering red boxes and recognizing the letters written on them, 2) gathering yellow tennis balls from all over the field, 3) picking up some cans in specific positions of the field. Then the robot had to empty each group of objects in a specific goal.
